Involved in an accident?

6 Steps to Take

1. **Remain calm.** It helps you stay in control of the situation.
2. **Ensure you and your passengers are OK.** Move as far away from the roadway as possible, but remain at the accident scene. Warn oncoming traffic by activating your hazard warning lights and/or setting flares if you have them.
3. **Call 911** to report the accident.

4. **Contact your insurance company** and report the claim. The sooner your insurance company knows about the accident, the sooner they can begin to resolve your claim.

5. **Do not admit fault.** To protect yourself legally, do not discuss the car accident with anyone other than the police and your insurance company.
6. **Exchange vital information** with the other driver involved in the car accident.
